

Aleksandra Buzhinskaia

UX/UI Designer

PROFESSIONAL SUMMARY

I'm a UX/UI designer with 9+ years of experience in client-oriented industries and a strong understanding of user needs.

My design approach focuses on clarity, structure, and accessibility. I create intuitive, human-centered interfaces that simplify complex workflows.

Graduated from Yandex Practicum's UX/UI program, where I worked on real-world projects from user research and CJM to high-fidelity UI mockups.

EXPERIENCE

UX/UI Designer at Est delo dlya kazhdogo (Social start-up project)

Jun 2025 - till now - 1 month

- Designing an inclusive platform for job seekers and career events
- Developing job card interfaces, response forms, and employer dashboards with accessibility in mind
- Creating UI components based on the design system and WCAG principles

UX/UI Design Trainee at Yandex Practicum

Jul 2024 - Apr 2025 - 10 month

Project: Group Watch Feature for a Streaming Platform

- Conducted competitive analysis of similar services and interviewed users.
- Created user scenarios and wireframes, considering multiple interface states.
- Used the pre-built TVOË UI kit and customized components for project-specific needs.
- Introduced gamification elements — implemented a group rating system where participants could vote, and scores were averaged into a collective film rating.

Project: Complex Route Planning for Tutu.ru

- Collaborated with a team to design a feature for planning complex routes with transfers across different types of transportation.
- Conducted competitor analysis and designed user flows and screens covering the entire booking journey.
- Built a high-fidelity UI prototype aligned with the company's design system.
